

Build Resilience to Extreme Weather Events – Free Training

Thursday, March 28, 2019 | 8:00 a.m. – 4:30 p.m. *Free lunch provided.*

Main Office – Washington County Water Conservancy District

Receive a hands-on interactive training to learn how to adapt to current and future extreme weather impacts on critical drinking water, wastewater and stormwater assets. Learn to use CREAT, a risk assessment application that helps utilities adapt to extreme weather events.

Who Should Attend?

- Drinking water, wastewater and stormwater utility staff and management involved with planning, operations, sustainability and risk management
- Technical assistance providers
- Local, state, federal and tribal government officials
- Watershed planners
- Water sector associations

Training Objectives

- Share information about how environmental conditions and extreme weather events (e.g., drought and flooding) could impact drinking water, wastewater and stormwater utilities in the southwestern U.S.
- Introduce EPA's Creating Resilient Water Utilities resources and tools.
- Begin the process of conducting a risk assessment using [CREAT](#).
- Identify and share information on adaptation strategies to build utility long-term resilience.
- Overview of available resources for financing resilience and adaptation.

0.6 continuing education unit (CEU) under the Operator Certification Program and 6 engineering CEUs available for participation

Sponsored by Washington County Water Conservancy District, the Southern Utah Branches of American Public Works Association and American Society of Civil Engineers, American Water Works Association Intermountain Section, Utah Division of Emergency Management, Utah Department of Environmental Quality, and the U.S. Environmental Protection Agency

Agenda

8:00 – 8:30 a.m.	Registration
	Presentation: Regional Extreme Weather Projections and Water Sector Impacts
8:30 a.m. – 4:30 p.m.	Presentation: Adaptation Utility Case Study
<i>Free lunch provided</i>	CREAT Training
	Group Discussion: Identify and Prioritize Adaptation Strategies

Register by March 8th at <https://www.sciencemissionsupport.com/creatsouthernutahreg>

More workshop information is available on the registration site. If you have questions or would like more information, please email Alfredo Lagos (alfredo.lagos@gdit.com).
